

Appalachian Undergraduate Academy of Science

A National Science Supported Scholarship Program

The goal of this project is to increase the number of students (U.S. citizens or permanent residents) receiving baccalaureate degrees in established or emerging fields within science, technology, engineering, and mathematics (STEM).

Our program provides freshman, sophomore, and transfer students in science and mathematics and high-school interns an opportunity to establish research clusters under the supervision of a faculty mentor. The program provides students \$350 scholarship per semester with additional funding for equipment and research instruments.

Be among the first to join the Academy of Science to excel in your field of study. The mentoring, learning community, and supports that the program provides will guarantee your success.

For more information and application material, visit the STEP Project web page at www.cs.appstate.edu/step. Please contact Dr. Rahman Tashakkori at 828-262-7009 or via e-mail rt@cs.appstate.edu for more details.
